ABOUT US

Valenique Green Technology Private Limited At Valenique Green Technology Private Limited, we are deeply committed to reviving and modernizing the timeless art of herbal cultivation and essential oil production. Rooted in traditional oriental wisdom and empowered by modern technology, our mission is to create pure, sustainable, and therapeutic plant-based solutions for today's world.

WE SPECIALIZE IN

Cultivation of Medicinal Herbs – Grown using eco-conscious and sustainable practices, our herbs are carefully nurtured to preserve their natural potency and purity.

TRADITIONAL ORIENTAL OILS

Crafted with care, our oils carry the essence of centuries-old methods blended with modern precision.

DISTILLATION OF ESSENTIAL OILS

We use advanced distillation techniques to extract high-quality essential oils while retaining the delicate aromatic and therapeutic properties of the plants.

Our vision is to make natural wellness accessible while supporting biodiversity and rural communities.

From the field to the bottle, every step of our process reflects our respect for nature, tradition, and innovation. At Valenique Green Technology, we don't just produce oils; we cultivate a lifestyle rooted in balance, wellness, and sustainability.
